DETAILED ACTION

Response to Amendment

Pursuant to the response filed on 6 October 2008, the amendments to the abstract and claims has been entered into the instant application. Claims 2-4, 6-7, 9-12 & 23 have been cancelled, claims 1, 5, 8, & 13-22 remain with claims 19-22 being withdrawn previously, and claims 24-28 have been added to the instant application.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. **Claims 1 & 13** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation "loading a projectile into a barrel of a gun" has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

2. **Claims 1 & 13** recite the limitation "the barrel" or "the said barrel" in line 3. There is insufficient antecedent basis for this limitation in the claim.

3. **Claims 1 & 13** recite the limitation "the chamber" and "the gun" in line 5. There is insufficient antecedent basis for these limitations in the claim.

4. **As amended claims 1 & 13**, fail to positively recite a projectile, a barrel, a chamber, or a gun.

5. **Claim 1** is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim refers to engraving of the projectile in the barrel at the proximate end of the barrel, but fails to define the structure that performs the engraving or how the projectile is engraved.

Additionally, the projectile is "released" by the urging member, there is no device described for the urging member that would hold the projectile or require release. This limitation without additional structure is unclear and should be clarified or deleted.

Allowable Subject Matter

6. Based on the specification, **Claims 1 & 13** appear to be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

7. **Claims 5, 8, 14-18, and 24-28** are objected to as being dependent upon a rejected base claim.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3641
